Person in a Costume

Man in Uniform

Our new A+ Puppy Program provides raisers with a checklist of socialization and training activities for the first eight weeks. During this critical time in a dogs' development, it is important to expose puppies to a wide variety of experiences. During the first eight weeks puppy raisers also have their own classes with a special curriculum to help them get off to a good start with their training.

Ellis Elementary School Adopts a Puppy and Raises Over \$1,000

We were contacted by Ellis School because they were learning about service dogs. They asked if we could come and do a demo. We

sent one of our puppy raiser families and their new puppy Breezy. They visited the school several times throughout the school year so the students could see Breezy grow and progress through her training.

The students took it upon themselves to create and promote a Go Fund Me page to help sponsor Breezy. They did an amazing job and raised over \$1,000!

All of us at A.C.T.S. send a big thank you to teacher Robin Lee, all her students, and Ellis Elementary School.

Field Trips Made Possible by the May HTR Foundation

Thanks to a generous grant from the May HTR Foundation, we have been able to increase, at no cost to our volunteers, the number and quality of field trips we take each year. Field trips are a great way to socialize puppies and represent an important part of our training. We are excited to be the recipient of this generous grant.

This year the puppies have had the opportunity to train in a variety of places including amusement parks, boat rides, cities, airports, train rides, fairs, box stores, and hospitals.

Thank you

I would like to send out a big thank you to everyone in our A.C.T.S. family. We continue to be grateful to all the people who have helped make a difference through volunteering or donating.
